

PROFILE | PRESENTATION

Hi!
I am Julio Santarelli

I am a **visual communication designer** with a strong background in information design and specialized in user experience and interface design.

santarellijulio@gmail.com

Other skills

Coordination of UI/UX teams under the SCRUM methodological framework. Definition and documentation of stylistic guidelines and good practices through the GIT workflow.

PROFILE | METHODOLOGY

Research. Analyze. Design

My work is based in interviewing **users**, assessing screens and detecting usage patterns to identify problems and define how to solve them. Then I analyze, **conceptualize** and sketch, from the *wireframe* stage to complete *workflows*. Next I focus on the **design** and generate prototypes, both in *low* and *high* fidelity. Finally, I do the layout, develop the interactivity and implement the **functional digital product**.

PROFILE | WORK RESUME

DCV Julio Nicolás Santarelli

Date of birth
December 6th, 1984

Identity number
31359294

Sons
3

Marital status
Single

Experience

HEALTHCARE DASHBOARD DESIGN

Concentrix

Wireframing, prototyping, UI design, accessibility

Consulting services for healthcare. Research + UI Design + Front-end.

HEALTH RECORDS SYSTEM + MOBILE APP

ANDES

Wireframing, design and HTML, CSS, AngularJS layouting

Interface design for the state healthcare system. Extension and maintenance of the graphic components library named [PLEX](#).

EDITORIAL DESIGN | MULTIMEDIA DESIGN

LM Neuquén

Designer of microchrosites, printed and digital infographics.

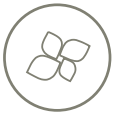

Visual treatment of news and special events for print and digital media.

HTML/CSS/JS LAYOUTING

Aberturas S.A

High fidelity layout. Structuring and modularization of components.

DESIGN + PROTOTYPING

CME Sur

Use of a prototyping tool (Figma) as a link with developers.

DESIGN + PROTOTYPING + LAYOUTING

SiempreTaxi

Use of multiplatform framework, use of emulators to evaluate mobile compatibility.

DESIGN, LAYOUT + PHP IMPLEMENTATION

Neuquen Public Hospital

Design based on metrics, Human Resources section based on user requirements.

Activities

SHOW & TELL

Project updating demo for stakeholders

Research and prototype demo presentation for [symplr](#).

CONFERENCE

Snomed CT Conf 2020

A healhcare terms navigator presented in conjunction with an interdisciplinary work group .

WORKSHOP

Agile methodology applied to interface design

Mentor and facilitator for the activity given during the CAIS 2019 event.

TALKS

Designer integration to IT fields

Talk given to fourth year students during the interface design course

Education

NATIONAL UNIVERSITY OF LA PLATA

Visual Communitaction

Final project: Graphics applied to urban-architectural environments.

Case study: Municipal Sports Park (MDP)

[View project](#) / [View degree](#)

UDEMY

Three.js and TypeScript

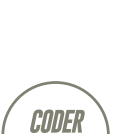

[View certificate](#)

UDEMY

Guide to Augmented Reality with Unity

[View certificate](#)

UDEMY

Axure RP 9 Mobile prototyping for UX

[View certificate](#)

CODERHOUSE

Web development

Final project: Interactive location plan.

Case: Neuquén Provincial Hospital

[View project](#) / [View certificate](#)

NEUQUÉN PUBLIC HOSPITAL

Management Course

Course “PLANNING IN HEALTH”: Work, Organization, Management and Government.
